

I am writing on the issue of Low Power FM (LPFM). I have listen to K-love for 7 years. I believe K-love has served me in a way in keeping my spiritual needs in order. Also, when i am in some way need of help, by listening to K-love refreshes my mind and hopes. If k-love were to go off the air it would effect us as the community mentially and spiritually. I believe k-love is in the public interest because there are so many radio stations out their that sale and play violance and sexuall music. I feel the public would like to hear some real good positive music to make them feel good about them self. Thats what i want for my child. I pray that the FCC well consider keeping K-love just the way it is. Thank you for listening. God Bless!
